## US 97 Safety Corridor

### Project Cost

\$17,240,000

RAISE GRANT 14083667

US 97 between Union Gap and Toppenish is a **major agricultural and freight corridor** in the Yakima Valley crossing through the Yakama Nation. WSDOT has recently completed the construction of roundabouts at the intersection of US 97 and McDonald/Becker Road and at the intersection of US 97 and Jones Road. WSDOT will construct an additional roundabout at the US 97/Lateral A intersection, currently planned for Summer 2025. WSDOT is submitting a RAISE grant application for the construction of three roundabouts, sidewalk, and trail sections at and between the intersections of US 97, SR 22, and Larue Road.

- **\$20M Invested**
- **\$27M to Finish**

## City of Zillah

### Cheyne Road Widening and Pedestrian Facilities

### Project Cost

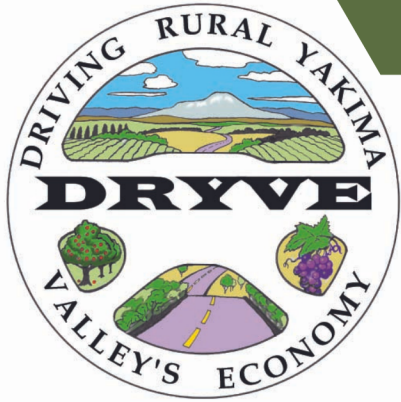

\$3,200,000

A critical road widening project on Cheyne Road to enhance pedestrian safety, particularly for Zillah Middle School students, and make it safer and easier for everyone who uses this highly traveled roadway, including: Yakima Waste Systems, Zillah School District buses, Borton Fruit, Monson Fruit, and countless tourists visiting the estate wineries in the Rattlesnake Hills AVA in Yakima County. By widening a quarter-mile section, the project creates separation between walkers, bicyclists, and heavy trucks using the important North-South T-3-FGTS freight route.
